Under this agreement for 2014
Dulacca State School will receive

This funding will be used to

- Ensure all Year 3 students reach NMS in literacy and numeracy in 2014 and beyond.
- Develop individual learning plans for those students at risk of not achieving NMS and enact these plans.
- Improve teacher capability through engagement in the SCORE reading comprehension professional learning opportunities.
- Maintain our high proportion of year 3 students in the U2B for reading and numeracy by 2015 and beyond.
- Deliver pre-prep program to 3 and 4 year old children in the community to ensure the development of early literacy and numeracy and preparedness for Prep.

Our strategy will be to

- Use an on-going process of identifying students’ current achievement level, determining the students future learning needs, teaching to these needs, re-assessing effectiveness of the teaching strategy and then embarking on the next learning cycle.
- Review student data on a fortnightly cycle to adjust curriculum, resources and pedagogy.
- Ensure that teacher capability is enhanced through accessing professional learning for all staff in SCORE reading comprehension and ensuring staff work collaboratively with Project 600 staff.

Evidence:
- Archer, Anita, Hughes, Charles – Explicit Instruction, Effective and Efficient Teaching, Guilford Press. 2011

Our school will improve student outcomes by

- Developing a “cycle of review” which provides opportunities to collect, share and analyse data.
- Using systemic (NAPLAN) and other data (eg PAT) to develop individual learning plans that incorporate specific targeted teaching strategies, targets and learning goals and specific teaching strategies.
- Employing a teacher and suitably trained Aide to work with individual/small groups of students to provide intensive instruction based on the individualised learning goals and specific teaching strategies.
- Engaging year 3 students with the online reading program Project 600.
- Funding towards the continuation of our E-Kindy program.
